

**THANET! Means Business** September 2005 Issue 30

## ***Starry approach to problem solving***

CONSTELLATIONS is the name given to a method of helping businesses and employees solve human and cultural issues.

Margate based Mind Gliding facilitates the sessions which enable communication and relationships between people in an organisation to improve. In turn, claims partner Eddy Klopprogge, this will bring increased efficiency and reduce waste.

Constellations will also bring clarity to any business planning.

Eddy told TMB: "Organisations are often better at fixing technical problems than human or cultural issues. Some situations often seem so complex or delicate you do not know where to start – Constellations bring a quick solution with long lasting results."

To find out more visit [www.mind-gliding.co.uk](http://www.mind-gliding.co.uk) and download the free article on Organisational Constellation.

To experience a constellation contact Peter or Eddy of Mind Gliding on 01843 296565.
